

3RD ANNUAL

PEDIATRIC RHEUMATOLOGY: AN UPDATE FOR CLINICIANS

Sponsored by the NYU Post-Graduate Medical School

WEDNESDAY, MARCH 21, 2012
NEW YORK, NY

Course Description/Statement of Need

Pediatric Rheumatology is one of the newest and smallest pediatric subspecialties. There are fewer than 200 pediatric rheumatologists in the United States, with several states lacking even a single pediatric rheumatologist. Many general pediatricians and adult rheumatologists must therefore have sufficient training to diagnose children with rheumatic disease. Promoting increased awareness is essential for treating rheumatic disease earlier and effectively in order to minimize damage and improve patient outcome. This unique course will focus on closing the gap between clinical experience and practice through expert lectures, a panel discussion and a question and answer portion.

Target Audience

General pediatricians, pediatric subspecialists, pediatric rheumatologists, and adult rheumatologists are the target audience. Medical students, residents and fellows are also encouraged to attend.

Educational Objectives

- Describe prevalence of rheumatic diseases in children, as well as practical strategies for early diagnosis and timely referral to a pediatric rheumatologist when appropriate
- Demonstrate competence and confidence in diagnosing the etiology of chronic musculoskeletal pain in children
- Discuss recently approved therapies for Juvenile idiopathic arthritis that are target specific and cause fewer adverse effects as well as current and future clinical trials, particularly data on the murine models of Spondyloarthritis in regards to the immunogenetics mediating disease
- Diagnose HSP, including atypical presentations; review mechanisms mediating disease, and mucosal immunity, as well as current “guidelines” for therapy
- Describe the key differences between pediatric and adult rheumatic disease, in terms of treatment algorithms as well as the physical and psychosocial ramifications of chronic, often incurable, rheumatic disease, and the burden of chronic medication
- Consider the potential, rheumatic etiology for musculoskeletal pain, before referring patients to an orthopedist for evaluation
- Evaluate the need for effective and appropriate treatment of inflammatory disease to prevent permanent growth retardation while acknowledging the concern regarding the potential toxicity of many medications

Accreditation Statement

The NYU Post-Graduate Medical School is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

Credit Designation Statement

The NYU Post-Graduate Medical School designates this live activity for a maximum of 3.50 *AMA PRA Category 1 Credits*[™]. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Disclosure Statement

The NYU Post-Graduate Medical School adheres to the ACCME Essential Areas and Policies, including the Standards for Commercial Support, regarding industry support of continuing medical education. In order to resolve any identified Conflicts of Interest, disclosure information is provided during the planning process to ensure resolution of any identified conflicts. Disclosure of faculty and commercial relationships as well as the discussion of unlabeled or unapproved use of any drug, device or procedure by the faculty will be fully noted at the meeting.

Location

NYU Langone Medical Center, Farkas Auditorium
550 First Avenue (31st St.), New York, NY 10016

Registration

To register, please visit <http://cme.med.nyu.edu/pedrheum>
Applications will be accepted in order of their receipt. In order to reserve your seat, please register in advance as on-site registration is not guaranteed. An email confirmation will be sent confirming your registration. Written confirmations will not be mailed.
(Please note: We cannot accept telephone registration.)

Mailing Address & Contact Information

Registration Office, NYU Post-Graduate Medical School
P.O. Box 1855, Murray Hill Station, New York, NY 10016
Phone: (212) 263-5295 • Fax: (212) 263-5293
